

Memory PICtail™ Plus and PIM Modules

Overview

The Memory PICtail™ Plus and PIM modules are a series of boards designed around Microchip Serial EEPROM devices. The boards are designed to interface with the PICtail Plus connector as well as the MPLAB® Memory Starter Kit and the PICkit™ 2.

Key Features of the Board

- Follows the published recommended usage for each bus, including decoupling capacitors, pull-up/down resistors
- PICtail Plus connector and PICkit 2 connector
- Test points for oscilloscope connections for firmware debugging. (I²C™ and UNI/O® only)
- High density, wide voltage range devices mounted to the board

Getting Started

The memory PIM modules allow you to get started right out of the box. By using one of the PIM modules with either the MPLAB Memory Starter Kit or the PICkit 2, you can read and write the Serial EEPROM directly. Many of the application notes written for the PIC® microcontroller families will work directly with the corresponding PIM module, by installing the PIM into the PICtail Plus connector on the Explorer 16 Board. The following devices are mounted on the boards.

- 11AA160 – UNI/O®
- 24AA512 – I²C™
- 25AA512 – SPI
- 93AA86B – Microwire

Данный компонент на территории Российской Федерации

Вы можете приобрести в компании MosChip.

Для оперативного оформления запроса Вам необходимо перейти по данной ссылке:

<http://moschip.ru/get-element>

Вы можете разместить у нас заказ для любого Вашего проекта, будь то серийное производство или разработка единичного прибора.

В нашем ассортименте представлены ведущие мировые производители активных и пассивных электронных компонентов.

Нашей специализацией является поставка электронной компонентной базы двойного назначения, продукции таких производителей как XILINX, Intel (ex.ALTERA), Vicor, Microchip, Texas Instruments, Analog Devices, Mini-Circuits, Amphenol, Glenair.

Сотрудничество с глобальными дистрибьюторами электронных компонентов, предоставляет возможность заказывать и получать с международных складов практически любой перечень компонентов в оптимальные для Вас сроки.

На всех этапах разработки и производства наши партнеры могут получить квалифицированную поддержку опытных инженеров.

Система менеджмента качества компании отвечает требованиям в соответствии с ГОСТ Р ИСО 9001, ГОСТ РВ 0015-002 и ЭС РД 009
