

Moisture Sensitivity Level (MSL) – This product is Hermetically Sealed and not Moisture Sensitive - MSL = N/A: Not Applicable

### FEATURES:

- PPAP ready and supported
- TS16949 certified production lines
- Ultra-miniature size and low profile package: 2.5 x 2.0 x 0.55mm
- AEC-Q200 qualified
- Hermetically sealed ceramic package assures high precision and reliability
- Extended operating temperature range: -40°C to +125°C
- RoHS compliant and Pb free

### APPLICATIONS:

- Navigation
- Car entertainment system
- COTS Military
- Test equipment
- Industrial control
- Medical Electronics (non-life dependent)
- Comfort control
- Instrument panel
- Telematics
- Industrial automation

### STANDARD SPECIFICATIONS:

| Parameters                                                          | Minimum     | Typical | Maximum | Units | Notes                                    |
|---------------------------------------------------------------------|-------------|---------|---------|-------|------------------------------------------|
| Frequency Range                                                     | 12.000      |         | 62.500  | MHz   |                                          |
| Operation Mode                                                      | Fundamental |         |         |       |                                          |
| Operating Temperature                                               | -40         |         | +125    | °C    | See options                              |
| Storage Temperature                                                 | -55         |         | +125    | °C    |                                          |
| Frequency Tolerance @+25°C                                          | -50         |         | +50     | ppm   | See options                              |
| Frequency Stability over the Operating Temperature ( ref. to +25°C) | -100        |         | +100    | ppm   | See options                              |
| Equivalent series resistance (R1)                                   |             |         | 150     | Ω     | 12.000~15.999MHz                         |
|                                                                     |             |         | 80      |       | 16.000~19.999 MHz                        |
|                                                                     |             |         | 60      |       | 20.000~29.999 MHz                        |
|                                                                     |             |         | 50      |       | 30.000~34.999 MHz                        |
|                                                                     |             |         | 40      |       | 35.000~62.500 MHz                        |
| Shunt capacitance (C0)                                              |             |         | 5.0     | pF    |                                          |
| Load capacitance (CL)                                               | 10          |         |         | pF    | Standard (See options if other than STD) |
| Drive Level                                                         |             | 10      | 100     | μW    |                                          |
| Aging                                                               | -3          |         | +3      | ppm   | @25°C±3°C First year                     |
| Insulation Resistance                                               | 500         |         |         | MΩ    | @ 100Vdc ± 15V                           |

### OPTIONS AND PART IDENTIFICATION:

ABM10AIG

RoHS / RoHS II Compliant

2.5 x 2.0 x 0.55mm

## OUTLINE DIMENSIONS:

• #1, #3 : Crystal terminal / #2, #4 : Connected to cover  
(Please connect it with GND.)

## Recommended Land Pattern

Dimensions: mm

## REFLOW PROFILE:

ABM10AIG

RoHS / RoHS II Compliant

2.5 x 2.0 x 0.55mm

## TAPE & REEL:

Option T3: 3,000pcs/reel

Dimensions: mm

**ATTENTION:** Abracon Corporation's products are COTS – Commercial-Off-The-Shelf products; suitable for Commercial, Industrial and, where designated, Automotive Applications. Abracon's products are not specifically designed for Military, Aviation, Aerospace, Life-dependant Medical applications or any application requiring high reliability where component failure could result in loss of life and/or property. For applications requiring high reliability and/or presenting an extreme operating environment, written consent and authorization from Abracon Corporation is required. Please contact Abracon Corporation for more information.

# Pierce Analyzer System (PAS) Advanced Board Characterization Service

*Abracon PAS System enables us to offer Automotive, Medical, and Industrial application customers a comprehensive, automated assessment of the Pierce Oscillator loop, in concert with the customers selected Quartz Crystal. The PAS System Circuit Analysis report is ideally suited for PPAP documentation, design history reporting, and overall assurance of a reliable optimized circuit.*

## **Features:**

- Circuit characterization; providing best possible match between Quartz Crystal, oscillator loop and associated components
- Eliminates probability of oscillator start-up issues related to inadequate design or marginal component performance
- Eliminates production launch issues related to crystal oscillator based timing circuit
- Solves design margin uncertainty

## **Deliverables:** A detail Report encompassing:

### • **Stand alone Quartz Crystal characteristics including:**

- Motional parameters (Cm, Lm, ESR & C0)
- Narrow Band Frequency Response Plot
- Wide Band Frequency Response Plot
- Admittance versus Susceptance plot
- Frequency dependence versus load capacitance plot

### • **Oscillator loop characteristics including:**

- Initial frequency accuracy and drive level as seen by the crystal with measured ESR
- Worst case projected drive level with maximum specified ESR
- Safety Factor of the oscillator loop under both typical and maximum ESR
- Recommendation on proper component selection (C1, C2 & Rs when applicable) for best compromise with respect to Safety Factor and Frequency accuracy
- Recommendation on the Abracon Crystal part # with proper plating load and other key attributes to enable the most robust design, specific to the  $\mu$ controller/processor implemented

## **Ordering information:**

|                  |                                                 |
|------------------|-------------------------------------------------|
| <b>PAS-BC1WK</b> | Analysis & Report with 1-week maximum lead-time |
| <b>PAS-BC2WK</b> | Analysis & Report with 2-week maximum lead-time |
| <b>PAS-BC3WK</b> | Analysis & Report with 3-week maximum lead-time |

## Данный компонент на территории Российской Федерации

**Вы можете приобрести в компании MosChip.**

Для оперативного оформления запроса Вам необходимо перейти по данной ссылке:

<http://moschip.ru/get-element>

Вы можете разместить у нас заказ для любого Вашего проекта, будь то серийное производство или разработка единичного прибора.

В нашем ассортименте представлены ведущие мировые производители активных и пассивных электронных компонентов.

Нашей специализацией является поставка электронной компонентной базы двойного назначения, продукции таких производителей как XILINX, Intel (ex.ALTERA), Vicor, Microchip, Texas Instruments, Analog Devices, Mini-Circuits, Amphenol, Glenair.

Сотрудничество с глобальными дистрибьюторами электронных компонентов, предоставляет возможность заказывать и получать с международных складов практически любой перечень компонентов в оптимальные для Вас сроки.

На всех этапах разработки и производства наши партнеры могут получить квалифицированную поддержку опытных инженеров.

Система менеджмента качества компании отвечает требованиям в соответствии с ГОСТ Р ИСО 9001, ГОСТ РВ 0015-002 и ЭС РД 009
