■ Siamese Coaxial Cables

General Cable now offers **Carol® Brand Siamese Coaxial Cables**—available with either dual coaxial cables or coaxial cable with a twisted pair and also in a plenum-rated design for installation in a drop ceiling or a raised floor. These cables are easier to install than standard coaxial cables and are ideal for dual Direct Broadcast System (DBS) applications where one dish is used to serve two receivers. They are also critical for satellite hookup where a powered-pair cable is desired.

Other applications for these coaxial cables include sound and security surveillance cameras where the coaxial cable transmits the audio/video signal and the twisted pair is used to control the pan and tilt function of the closed-circuit television (CCTV) camera. In today's uncertain world, security installations are occurring at a double-digit growth rate. Security cameras are being installed in virtually every office, school, and government facility, on highways and in traffic control centers and in most industrial, commercial, and manufacturing facilities. Wherever security cameras are installed, General Cable has the right cable to make the connection—reliably.

When you have a need for coaxial cables, think of Carol Brand Cables first. Remember, you can always Demand Better and Expect More with General Cable Carol Brand Electronic Cables. We manufacture over 1,300 standard electronic cables that we can ship direct from stock, and we have the technical staff and design expertise to meet any custom cable requirement.

Product Construction:

Conductors:

- Copper per ASTM B-3 or Copper clad steel per ASTM B-869

Insulation/Core:

- Cellular polyethylene, FEP, or Halar

Shield:

- Bare copper or tinned copper or Aluminum braid
- Flexfoil® shield available

Jacket:

- Premium PVC or Plenum PVC

Packaging:

- 1000' (305 m) Reels
- Other put-ups available – consult Customer Service

Applications:

- Suitable for RF signal transmission
- CATV
- DBS
- Drop cable
- Digital video

Данный компонент на территории Российской Федерации

Вы можете приобрести в компании MosChip.

Для оперативного оформления запроса Вам необходимо перейти по данной ссылке:

<http://moschip.ru/get-element>

Вы можете разместить у нас заказ для любого Вашего проекта, будь то серийное производство или разработка единичного прибора.

В нашем ассортименте представлены ведущие мировые производители активных и пассивных электронных компонентов.

Нашей специализацией является поставка электронной компонентной базы двойного назначения, продукции таких производителей как XILINX, Intel (ex.ALTERA), Vicor, Microchip, Texas Instruments, Analog Devices, Mini-Circuits, Amphenol, Glenair.

Сотрудничество с глобальными дистрибьюторами электронных компонентов, предоставляет возможность заказывать и получать с международных складов практически любой перечень компонентов в оптимальные для Вас сроки.

На всех этапах разработки и производства наши партнеры могут получить квалифицированную поддержку опытных инженеров.

Система менеджмента качества компании отвечает требованиям в соответствии с ГОСТ Р ИСО 9001, ГОСТ РВ 0015-002 и ЭС РД 009
