

SAW Components

SAW Rx Filter

GSM 900

Series/Type:	B9401
Ordering code:	B39941-B9401-K610
Date:	Oct 21, 2005
Version:	1

SAW Components

B9401

Low-Loss Filter for Mobile Communication

942.50 MHz

Data Sheet

Application

- Low-loss RF filter for mobile telephone GSM systems, receive path (RX)
- Impedance transform from 50 Ω to 150 Ω
- Unbalanced to balanced operation
- Very low insertion attenuation
- Low amplitude ripple
- Usable passband 35 MHz
- Suitable for GPRS class 1 to 12

Features

- Package size 1.4 x 1.1 x 0.4 mm³
- RoHS compliant
- Approx. weight 0.003 g
- Package for **Surface Mount Technology (SMT)**
- Ni, gold-plated terminals

Pin configuration

- 1 Input, unbalanced
- 3,4 Output balanced
- 2,5 To be grounded

B9401

Low-Loss Filter for Mobile Communication

942.50 MHz

Data Sheet

Characteristics

Operating temperature range: $T = -20$ to $+75$ °C
Terminating source impedance: $Z_S = 50\Omega$
Terminating load impedance: $Z_L = 150\Omega \parallel 82$ nH (balanced)

				B9401			
				min.	typ. @ 25°C	max.	
Center frequency	f_C			—	942.5	—	MHz
Maximum insertion attenuation	α_{\max}			—	1.5	2.1	
	925.0 ... 960.0	MHz		—	1.5	2.1	dB
Amplitude ripple (p-p)	$\Delta\alpha$			—	0.6	1.1	
	925.0 ... 960.0	MHz		—	0.6	1.1	dB
Input VSWR				—	1.7	2.0	
	925.0 ... 960.0	MHz		—	1.7	2.0	
Output VSWR				—	1.7	2.0	
	925.0 ... 960.0	MHz		—	1.7	2.0	
Output amplitude balance (S_{31}/S_{21})				—1.0	-0.7/0.5	1.0	
	925.0 ... 960.0	MHz		—1.0	-0.7/0.5	1.0	dB
Output phase balance ($\phi(S_{31}) - \phi(S_{21}) + 180^\circ$)				-5	-2/+3	5	
	925.0 ... 960.0	MHz		-5	-2/+3	5	°
Attenuation	α						
	0.0 ... 480.0	MHz		45	53	—	dB
	480.0 ... 900.0	MHz		30	34	—	dB
	900.0 ... 905.0	MHz		25	28	—	dB
	905.0 ... 915.0	MHz		20	24	—	dB
	980.0 ... 1000.0	MHz		25	29	—	dB
	1000.0 ... 1850.0	MHz		28	32	—	dB
	1850.0 ... 1920.0	MHz		40	46	—	dB
	1920.0 ... 3700.0	MHz		35	43	—	dB
	3700.0 ... 6000.0	MHz		40	48	—	dB

Purchase orders are subject to the General Conditions for the Supply of Products and Services of the Electrical and Electronics Industry recommended by the ZVEI (German Electrical and Electronic Manufacturers' Association), unless otherwise agreed.

This brochure replaces the previous edition.

For questions on technology, prices and delivery please contact the Sales Offices of EPCOS AG or the international Representatives.

Due to technical requirements components may contain dangerous substances. For information on the type in question please also contact one of our Sales Offices.

Important notes

The following applies to all products named in this publication:

1. Some parts of this publication contain **statements about the suitability of our products for certain areas of application**. These statements are based on our knowledge of typical requirements that are often placed on our products in the areas of application concerned. We nevertheless expressly point out **that such statements cannot be regarded as binding statements about the suitability of our products for a particular customer application**. As a rule, EPCOS is either unfamiliar with individual customer applications or less familiar with them than the customers themselves. For these reasons, it is always ultimately incumbent on the customer to check and decide whether an EPCOS product with the properties described in the product specification is suitable for use in a particular customer application.
2. We also point out that **in individual cases, a malfunction of passive electronic components or failure before the end of their usual service life cannot be completely ruled out in the current state of the art, even if they are operated as specified**. In customer applications requiring a very high level of operational safety and especially in customer applications in which the malfunction or failure of a passive electronic component could endanger human life or health (e.g. in accident prevention or life-saving systems), it must therefore be ensured by means of suitable design of the customer application or other action taken by the customer (e.g. installation of protective circuitry or redundancy) that no injury or damage is sustained by third parties in the event of malfunction or failure of a passive electronic component.
3. The warnings, cautions and product-specific notes must be observed.
4. In order to satisfy certain technical requirements, **some of the products described in this publication may contain substances subject to restrictions in certain jurisdictions (e.g. because they are classed as "hazardous")**. Useful information on this will be found in our Material Data Sheets on the Internet (www.epcos.com/material). Should you have any more detailed questions, please contact our sales offices.
5. We constantly strive to improve our products. Consequently, **the products described in this publication may change from time to time**. The same is true of the corresponding product specifications. Please check therefore to what extent product descriptions and specifications contained in this publication are still applicable before or when you place an order. We also **reserve the right to discontinue production and delivery of products**. Consequently, we cannot guarantee that all products named in this publication will always be available.
6. Unless otherwise agreed in individual contracts, **all orders are subject to the current version of the "General Terms of Delivery for Products and Services in the Electrical Industry" published by the German Electrical and Electronics Industry Association (ZVEI)**.
7. The trade names EPCOS, CeraDiode, CSSP, PhaseCap, PhaseMod, SIFI, SIKOREL, SilverCap, SIMID, SIOV, SIP5D, SIP5K, TOPcap, UltraCap, WindCap are **trademarks registered or pending** in Europe and in other countries. Further information will be found on the Internet at www.epcos.com/trademarks.

Данный компонент на территории Российской Федерации

Вы можете приобрести в компании MosChip.

Для оперативного оформления запроса Вам необходимо перейти по данной ссылке:

<http://moschip.ru/get-element>

Вы можете разместить у нас заказ для любого Вашего проекта, будь то серийное производство или разработка единичного прибора.

В нашем ассортименте представлены ведущие мировые производители активных и пассивных электронных компонентов.

Нашей специализацией является поставка электронной компонентной базы двойного назначения, продукции таких производителей как XILINX, Intel (ex.ALTERA), Vicor, Microchip, Texas Instruments, Analog Devices, Mini-Circuits, Amphenol, Glenair.

Сотрудничество с глобальными дистрибьюторами электронных компонентов, предоставляет возможность заказывать и получать с международных складов практически любой перечень компонентов в оптимальные для Вас сроки.

На всех этапах разработки и производства наши партнеры могут получить квалифицированную поддержку опытных инженеров.

Система менеджмента качества компании отвечает требованиям в соответствии с ГОСТ Р ИСО 9001, ГОСТ РВ 0015-002 и ЭС РД 009
