

# Manual Switches

## Covers for Paddle Switches

Colored covers simply snap into the top of paddle switch housings.

### COLOR DISPLAY OPTIONS

**Transmitted color** — Color is displayed whether lamp is On or Off. Choice of 1-piece covers (types 10 or 20) or covers with clear cap and colored translucent insert (types 11 or 12).

**Projected color** — Translucent white cover with transparent colored insert (types 50 or 60). White cover appears colored when illuminated.

**Dead front hidden color/hidden legend** — Cover appears black with lamp Off. Legend and color appear when illuminated (types 30 or 40).

### HOW TO ORDER LEGENDS FOR PADDLE SWITCH COVERS

When specifying legended paddle switch covers, submit a legend order sheet to cover each catalog listing. These forms identify the maximum number of lines per area and the maximum characters per line, based on the type size you request.

To insure proper legend orientation, paddle switch housings (when viewed from the panel front) should have the "MICRO SWITCH" identification facing UP or to the LEFT.

Legend order sheets for covers are shown on the following pages. Reproduce them on your office copier or request a pad of them from the 800 number.:

<b>Legend Sheet</b>	<b>Form No.</b>
AML53 Covers	FO-63567
AML55 Covers	FO-63565

AML55-E, -T, and -H covers have an open window which allows LED's to be flush with the cover surface.

\* Notes:

<sup>1</sup> Only one color code letter is necessary for AML55-E 1/2 covers.

<sup>2</sup> To order a 1/2-cover without the LED "window," specify an AML53-E listing from the previous page.

Example: **AML55-T10YR**

Two-piece cover; with LED window in one side, transmitted color, no legend; yellow (LED side) and red (non-LED side).
