1 Description

1.1 SMS/PMS Base module

Miniature push button switches with a low height of 4,55 - 4,95 mm for surface mounting (SMS) and PCB mounting (PMS).

The SMS has large flat surfaces on the top side as well as on the other sides, which are also parallel to each other. This makes the SMS a perfect switch for automatic mounting.

The SMS switch is suitable for the SMD soldering process "IR-Reflow".

The switch comes with the SMD-leads "Gullwing and J". With J-leads the switch can be lined up with a spacing of 1/2" in one coordinate direction, and with > 13,5 mm in the other coordinate direction. With Gullwing-leads, the switch can be arranged with a spacing of 1/2" in one coordinate direction, and in the other coordinate direction with > 17,5 mm.

A minimum spacing of 1/2" to 15 mm is necessary for the PCB version.

Basically, the SMS and PMS come in two basic versions concerning the degree of protection. Available are IP 40 and IP 67. According to the degree of protection the IP 40 version is not proof against fluxing and washing, whereas the IP 67 version is. Consequently, the IP 67 version can be exposed to the specified soldering and cleaning processes.

The miniature push button switches feature a very good tactile response with an actuation force of about 2N. SMS and PMS are also available with an elongated actuator. These variants serve as base modules for the SMS/PMS variable height version.

1.2 SMS/PMS Variable Height

The variable height SMS/PMS consists of the SMS/PMS base module with elongated actuator and a slip-on button with eight variable heights.

The PMS will be supplied with a mounted button. The button for the SMS has to be ordered separately. After soldering, the button must be put on the base module with elongated actuator.

Heights between 8,5 mm and 13,75 mm for the SMS and 8,35 mm and 13,60 mm for the PMS are available. Depending on the base module being used, degree of protection for the variable height SMS/PMS is IP 40 or IP 67.

2 Data and dimensional drawings

2.1 Technical Data SMS/PMS Base module/Variable Height

Electrical data:	IP40	IP67
Contact material	Gold ; Gold/Silver ⁽¹⁾	Gold
Switching voltage max.	30V AC/ 42V DC	30V AC/ 42V DC
Switching current max.	50 mA	50 mA
Rated breaking capacity	12 V/10 mA	12 V/10 mA
Lifetime (at 12V/10mA)	>1 x 10 ⁶ cycles	>1x10 ⁶ cycles
Lifetime (at 24V/80mA)	- ; >1x10 ⁵ ⁽¹⁾	-
Initial contact resistance new (IEC 512-2 mV-method)	<50 mOhm	<50 mOhm
Initial contact resistance after 1 x 10 ⁶ cycles	<150 mOhm	<150 mOhm
Insulation resistance (IEC 512-2)	> 1x 10 ⁸ Ohm	> 1x 10 ⁸ Ohm
Contact bounce time	typ. 0,15 ms	typ. 0,15 ms

Mechanical data:	IP40	IP67
Actuating force	1,8±0,4 N	2,2±0,4 N
Actuating travel	0,35±0,1 mm	0,35±0,1 mm
Mechanical strength (force axial, load 1 min.)	max. 100 N	max. 100 N
Lifetime (IEC 512-5. Test 9a. Actuating force 5N)	>1x 10 ⁶ cycles	>1x 10 ⁶

Soldering data:	SMS IP40/IP67	PMS IP40/IP67
Soldering method	IR Reflow	Wave soldering
Soldering heat resistance	245 °C/5sec.	248,5 °C/1sec

⁽¹⁾ PMS Typ 1241.1652

Changes that contribute to technical improvement are subject to alternations

Recommended IR-Reflow Profile for SMS

Tolerance for Temperature settings T +0°C (according to JEDEC J-STD-020C, July 2004)

Used Solder: Omnix O338 (Sn95.5%/Ag4%/Cu0.5%), Alpha Metals Loetsysteme GmbH

Recommended Wave Soldering Profile for PMS

Wave Soldering Equipment: **ERSA EMS 3300**
 Throughput speed: 1m / min
 Solder type: Sn100C from Nihon Superior (Balver-Solder)
 Flux material: AW30 Fa. Otto

Adjustments Heating Zones

Upper Zone :	280 °C	300 °C	
Lower Zone:	450 °C	500 °C	560 °C

Данный компонент на территории Российской Федерации

Вы можете приобрести в компании MosChip.

Для оперативного оформления запроса Вам необходимо перейти по данной ссылке:

<http://moschip.ru/get-element>

Вы можете разместить у нас заказ для любого Вашего проекта, будь то серийное производство или разработка единичного прибора.

В нашем ассортименте представлены ведущие мировые производители активных и пассивных электронных компонентов.

Нашей специализацией является поставка электронной компонентной базы двойного назначения, продукции таких производителей как XILINX, Intel (ex.ALTERA), Vicor, Microchip, Texas Instruments, Analog Devices, Mini-Circuits, Amphenol, Glenair.

Сотрудничество с глобальными дистрибьюторами электронных компонентов, предоставляет возможность заказывать и получать с международных складов практически любой перечень компонентов в оптимальные для Вас сроки.

На всех этапах разработки и производства наши партнеры могут получить квалифицированную поддержку опытных инженеров.

Система менеджмента качества компании отвечает требованиям в соответствии с ГОСТ Р ИСО 9001, ГОСТ РВ 0015-002 и ЭС РД 009
