

# Edco PC642 Series

Zone/Loop/Data

The Edco PC642 Series surge protective device, (SPD) is a two-pair (four wire) module implementing three-stage hybrid technology. This SPD addresses over-voltage transients with gas tubes and silicon avalanche components. In addition, sneak and fault currents are mitigated with resettable fuses (PTCs). The PTCs increase resistance several orders of magnitude when over-currents exceed safe levels. A normal state resumes when over-currents are removed. The ability to self-restore in this manner significantly increases suppressor performance and survivability.

The Edco PC642 card edge is gold-plated, double sided and is designed to mate with the Edco PCB1B-WKEY gold-plated female terminal connector (sold separately). When snapped together, the data circuits “pass thru” the protector in a serial fashion from the four “Field Side” terminals to the four “Electronics Side” terminals. Terminals 1 or 10 of the PCB1B must be attached to Building-Approved Ground.

## General Technical Specifications

|                           |  |
|---------------------------|--|
| Maximum Operating Voltage | 5, 30, 36, 250 VDC   |
| Clamping Voltage          | 8, 36, 43, 300 VDC   |
| Operating Current         | 0.15 A   |
| Peak Surge Current        | 10 kA (8 x 20 $\mu$ s)   |
| Frequency Range           | 0 to 20 MHz  |
| Insertion Loss            | < 0.1 dB at 50 MHz   |
| SPD Technology            | GDT, SAD, w/ Series PTC  |
| Connection Type           | Terminal Block, w/ compression lugs<br>Terminals accept up to 10 AWG |
| Operating Temperature     | -40°C to +85°C   |
| Dimensions (in / mm)      | 2.0" H x 1.0" W x 2.5" L (PC642 + Base)<br>[50.8 x 25.4 x 63.5 mm]   |
| Weight (oz / kg)          | 1 oz [0.03 kg]   |
| Certifications            | UL 497A  |

### Caution

*Do not place this product in service on any signal line capable of supplying more than 150 mA continuously.*

### Attention

*Ne pas placer ce produit dans le service sur une ligne de signal capable de fournir en permanence plus de 150 mA.*

## DANGER!

Only qualified personnel should install or service this system. Electrical safety precautions must be followed when installing or servicing this equipment. To prevent risk of electrical shock, turn off and lock out all power sources to the unit before making electrical connections or servicing.

Seulement le personnel qualifié doit installer ou maintenir ce système. Des précautions de sécurité en électricité doivent être suivies lors de l'installation ou de la maintenance de cet équipement. Pour éviter tout risque de choc électrique, débranchez et verrouillez toutes les sources d'alimentation de cet équipement avant de.

EDCO PCB1B-WKEY BASE SOLD SEPARATELY

## Features

- Three-stage hybrid protection
- Sneak/fault current protection
- Resettable fuses – PTCs
- Low capacitance option
- Plug-in module
- Requires Edco PCB1B-WKEY base
- Fast response time
- UL listed 497B
- 5 year warranty

# Installation Instructions

## Terminal Assignments

**DRAWING 1**

PCB1B-WKEY

**DRAWING 2**

Ground Terminal 1 or 10 to Building Approved Ground (preferably AC Power safety ground).

DO NOT daisy chain grounds. NOT intended for shield termination. Install ground in accordance with all applicable codes.

## Read and Understand These Instructions

### Note:

- These protectors are intended for indoor use on communication loop circuits which have been isolated from the Public Switch Telephone Network.
- The communication loop circuits shall not be exposed to accidental contact with the electric light or power conductors.
- The protectors shall be installed per the applicable requirements of the National Electric Code, ANSI/NFPA 70.
- Measure DC operating voltage of system to insure it does not exceed the rating of the selected surge device (5-250 VDC depending on the device).

### Installation:

1. Turn off power to circuit to be protected prior to installation.
2. Screw mounting base #PCB1B-WKEY (ordered separately) in desired location preferably as close to protected equipment as possible and in close proximity to a building approved grounding point using (2) #4 screws. PCB1B may also be DIN rail mounted using optional DIN clip assembly #11604KIT-PC (ordered separately).
3. Attach field side pairs (26-10 AWG) to positions 3/5 and 7/9, attach electronics side pairs (26-10 AWG) to positions 2/4 and 6/8. Attach ground wire (10 AWG) to positions 1 or 10 on base. **See Drawing 1.** Torque wires to 44 lbf/in [8 kgf/cm].
4. Insert PC642C module into keyed PCB1B-WKEY base. **See Drawing 2.**
5. Apply power to protected circuit.

## Ordering Information

| APPLICATIONS           | PART NUMBER               |
|------------------------|---------------------------|
| RS485, RS422           | PC642C-008LC & PCB1B-WKEY |
| RS232                  | PC642C-036LC & PCB1B-WKEY |
| E-NET, 10 BASE T       | PC642C-036LC & PCB1B-WKEY |
| 4-20 ma                | PC642C-036LC & PCB1B-WKEY |
| OPTION                 | PART NUMBER               |
| DIN Rail Kit Available | 11604KIT-PC               |

### How to Specify the Appropriate Model

\*Other configurations available, please contact factory.

| MODEL        | MAX. OPERATING VOLTAGE | CLAMPING VOLTAGE (1000V@1 mA) |
|--------------|------------------------|-------------------------------|
| PC642C-008LC | 5 VDC                  | 8 VDC                         |
| PC642C-036LC | 30 VDC                 | 36 VDC                        |
| PC642C-043LC | 36 VDC                 | 43 VDC                        |
| PC642C-200LC | 43-250 VDC             | 300 VDC                       |

## Данный компонент на территории Российской Федерации

### Вы можете приобрести в компании MosChip.

Для оперативного оформления запроса Вам необходимо перейти по данной ссылке:

<http://moschip.ru/get-element>

Вы можете разместить у нас заказ для любого Вашего проекта, будь то серийное производство или разработка единичного прибора.

В нашем ассортименте представлены ведущие мировые производители активных и пассивных электронных компонентов.

Нашей специализацией является поставка электронной компонентной базы двойного назначения, продукции таких производителей как XILINX, Intel (ex.ALTERA), Vicor, Microchip, Texas Instruments, Analog Devices, Mini-Circuits, Amphenol, Glenair.

Сотрудничество с глобальными дистрибьюторами электронных компонентов, предоставляет возможность заказывать и получать с международных складов практически любой перечень компонентов в оптимальные для Вас сроки.

На всех этапах разработки и производства наши партнеры могут получить квалифицированную поддержку опытных инженеров.

Система менеджмента качества компании отвечает требованиям в соответствии с ГОСТ Р ИСО 9001, ГОСТ РВ 0015-002 и ЭС РД 009
