## MARKING system

Conductor marking with  
Single Digit SD and  
thermal transfer printer

# All-purpose conductor marking

The THERMOMARK S1 compact thermal transfer printer and corresponding labeling material enables quick and easy labeling of all conductors and cables. Single Digit SD-WMS markers are ideal for applications where devices such as PCs and printers cannot be used.

## THERMOMARK S1

## Conductor marking material for THERMOMARK S1

### Material off the roll

For conductor and cable marking with the THERMOMARK S1, Phoenix Contact offers various types of labeling material off the roll\*. Depending on the requirements, the markers can be slid on, wound round, or attached with cable markers for larger diameters and to bundle conductors.

Delivery form: Roll

| WMT...   | Conductor diameter [mm] | Lettering field size [mm] | Markers per roll | Pcs./ Pkt. | Color | Type             | Order No. |

\* Thermomark print media are free from silicon and halogen. They meet the requirements of DIN EN 61010-1/VDE 0411-1.

\*\* These cable marker labels must only be processed with the external media hub on the THERMOMARK S1.

## Conductor marking with individual marking collars

### SD-WMS conductor marker (bag)

The SD-WMS conductor marking collars enable easy and reliable conductor labeling. Multi-character labels can be created by combining several pre-labeled individual collars. Delivery form: In a bag

### Accessories for SD-WMS...

The SD-WMS... TOOL alignment tools make it easier to slide markers onto the conductor.

The SORTI... storage boxes can be used to securely store the markers and are available in various sizes depending on the number of compartments.

## Conductor marking with individual marking collars

### SD-WMS conductor marker (roll)

The SD-WMS conductor marking collars enable easy and reliable conductor labeling. Multi-character labels can be created by combining several pre-labeled individual collars. Delivery form: Roll

## Данный компонент на территории Российской Федерации

### Вы можете приобрести в компании MosChip.

Для оперативного оформления запроса Вам необходимо перейти по данной ссылке:

<http://moschip.ru/get-element>

Вы можете разместить у нас заказ для любого Вашего проекта, будь то серийное производство или разработка единичного прибора.

В нашем ассортименте представлены ведущие мировые производители активных и пассивных электронных компонентов.

Нашей специализацией является поставка электронной компонентной базы двойного назначения, продукции таких производителей как XILINX, Intel (ex.ALTERA), Vicor, Microchip, Texas Instruments, Analog Devices, Mini-Circuits, Amphenol, Glenair.

Сотрудничество с глобальными дистрибьюторами электронных компонентов, предоставляет возможность заказывать и получать с международных складов практически любой перечень компонентов в оптимальные для Вас сроки.

На всех этапах разработки и производства наши партнеры могут получить квалифицированную поддержку опытных инженеров.

Система менеджмента качества компании отвечает требованиям в соответствии с ГОСТ Р ИСО 9001, ГОСТ РВ 0015-002 и ЭС РД 009
