	Technical Drawing / Dimension / Layouts	Page 140
	Circuit Drawing	Page 150
	Typical Applications	Page 151
Marking	Page 153	

General Notes

The indicators, illuminated pushbuttons, selector switches, keylock switches and emergency stop switches with spray-water protection at the front (IP 65) are modular and consist of an actuator and switching element. In addition to the standard switching elements (gold-plated silver contact with universal soldering or plug-in terminals), forced-opening, slow-make switching elements with gold or silver contacts and soldering or plug-in terminals are available. They can be supplied with screw terminals and silver contacts too. The front dimensions of the units in this series are 24 x 24 mm, 24 mm dia., 18 x 24 mm, 18 x 18 mm or 18 mm dia. For flush mounting the dimensions 25 mm dia., 24 x 30 mm and 24 x 24 mm can be supplied.

Mounting

All switch actuators are mounted from the front by pushing them through the mounting hole in the front panel. They are then fixed from the back with a fixing nut and the mounting tool typ no. 01-907. Max. tightening torque 50 Ncm. For mounting dimensions and grid size see as of page 145.

The preassembled switching element with the connecting wires in a single plane can be clipped on afterwards. For block or series mounting aids are available.

For switching elements with 2.8 mm plug-in terminals, we offer plug-in bases, which when soldered to a PCB enable a plug-in connection to the button. All actuators are provided with an anti-rotation device.

Lenses

The flat or concave lenses are available in various colours and a transparent or translucent version. The lens surface is non-reflecting (matt). Lenses 19.7 mm dia. can be supplied also in aluminium.

Marking

For engraving, hot stamping and film inserts, see page 153 under "Marking".

Illumination

The midget-grooved T 1 3/4 incandescent lamp (6-60 V, 1.2 W) ensures perfect illumination of the lenses, which are supplied in various colours.

Midget-grooved T 1 3/4 Multi-LED (6, 12, 24, 48 V) are also available in white, red, yellow and green.

For supply voltages above 60 V, it is necessary to use a voltage reduction element (external series resistor, capacitor or transformer). Do not solder the terminals directly, because of the high surface temperature.

Position indication

When the switch with maintained action is actuated, the lens snaps into place mechanically. The position of contacts can always be determined by the position of the lens.

Keylock switch

Standard lock (index D)

1 standard number 311. If the lock number is not specified, we will supply no. 311. An additional 134 special locks (index X) are available on request. Master keys for locks no. 311 - 445 may be ordered by quoting no. 31-989.300.

Two keys are supplied with each keylock switch.

Spare keys for DOM standard locks may be ordered by quoting no. 31-989 (please state the lock number).

Emergency stop switch foolproof with key to unlock

Kaba safety lock. Standard lock number is 1001. Locks with other numbers are available on request.

Spare keys for KABA locks may be ordered under no. 14-987 (please state the lock number).

Specimen orderIndicator complete

- indicator complete, soldering terminal, 18 x 24 mm 61-0030.02

Recommended accessories:

- lens plastic, 18 x 24 mm, clear 61-9331.7
- LED, 6 chips, 6 VDC, yellow 10-5306.3254

illuminated-/pushbutton

- 1 lens
- 2 actuator case
- 3 fixing nut
- 4 switching element

illuminated-/pushbutton for flush mounting

- 1 lens
- 2 actuator housing
- 3 front bezel
- 4 sealing
- 5 front panel
- 6 fixing bow
- 7 fixing nut
- 8 switching element

indicator complete

recommended accessories:

- lens plastic → 123
- front ring → 126
- incandescent lamp → 132; LED → 133

	connection method						circuit drawing	technical drawing	mounting dimension	
indicator complete	ST/PT	18 x 24 mm part no.	24 x 24 mm part no.	18 mm dia. part no.	18 x 18 mm part no.	24 mm dia. part no.	1	1	1	0,005

connection method: ST/PT = soldering-/plug-in terminal

Accessorie front ring only requested for Ø 24 mm.

marking see page 153

technical drawing as of page 140, mounting dimensions as of page 145, circuit drawing as of page 150

indicator-/flasher-actuator

recommended accessories:

- lens plastic → 123
- front ring → 126
- incandescent lamp → 132; LED → 133
- lamp element → 128; diode element → 128; flasher element → 131

						circuit drawing	technical drawing	mounting dimension	
indicator-/flasher-actuator	18 x 24 mm part no.	24 x 24 mm part no.	18 mm dia. part no.	18 x 18 mm part no.	24 mm dia. part no.	1	2	1	0,005

Accessorie front ring only requested for Ø 24 mm.

marking see page 153

technical drawing as of page 140, mounting dimensions as of page 145, circuit drawing as of page 150

illuminated-/pushbutton actuator

recommended accessories:

- lens plastic → 123; lens metal with window → 124; lens metal → 124
- front ring → 126
- incandescent lamp → 132; LED → 133
- switching element for illuminated-/pushbutton, keylock-/selector switch 2 positions → 129

	switching action	18 x 24 mm part no.	24 x 24 mm part no.	18 mm dia. part no.	18 x 18 mm part no.	24 mm dia. part no.	circuit drawing	technical drawing	mounting dimension

actuator with snap-action switching element

switching system

Self-cleaning, double-break, snap-action switching elements (contact gap 2 x 0.5 mm).

The elements can be supplied with the following choice of switching functions:

for illuminated pushbutton or switch actuator with 2 positions: max. 3 normally open contacts, max. 3 normally closed contacts or combined

switch actuator with 3 positions:

max. 2 normally open contacts, max. 2 normally closed contacts or combined

The switching element can be easily snapped to or dismantled from the actuator.

material

actuator case

polyetherimide PEI, self-extinguishing

front bezel

polyetherimide PEI and chromium plated

front ring

of aluminium

lenses

polymethylmethacrylat PMMA, polycarbonate PC, aluminium (mushroom head cap: polyamide PA)

material of contacts

gold-plated silver or silver

switching element

diallyl phthalate DAP, self-extinguishing, polysulfone PSU

mechanical characteristics

actuating force

measured at the lens of the illuminated pushbutton:
2.7-10 N, depending on the number of switching elements

actuating torque

measured at the lever or key of the selector-or keylock switch:
2.5 - 10 Ncm, depending on the number of switching elements

actuating travel

illuminated pushbutton :3 mm

switch actuator with 2 positions:

1 x ca. 42° deflection momentary action

1 x ca. 90° deflection maintained action

switch actuator with 3 positions:

2 x ca. 42° deflection momentary action

2 x ca. 90° deflection maintained action

ambient air temperature

-25°C to +55°C

for indicators and illuminated pushbuttons mounted as a block, make sure the heat can escape freely (as per DIN IEC 68-)

connection method

universal terminal (soldering-/plug-in terminal):

max. wire diameter: 2 of 1 mm

max. wire cross-section of stranded cable: 1 x 0.75 mm² soldering-/plug-in terminal: 2.8 x 0.5 mm

degree of protection

indicator, illuminated pushbutton, emergency stop switch, selector- and keylock switch: front IP 65

switching element IP 40

soldering terminal IP 20

mechanical life

as per IEC 512-5-6

momentary action 2 mio. cycles of operation

maintained action 1 mio. cycles of operation

keylock switch 50000 cycles of operation

selector switch 100000 cycles of operation

rebound time

<= 5ms

resistance to shock

(single impacts, semi-sinusoidal)

50 g, 11 ms as per IEC 512-4-3, IEC 68-2-27

resistance to vibration

(sinusoidal)

Flasher element

1. Continuous light

1. Engraving

Typefaces

In addition to the most commonly used world languages (see DIN 1451) with close spacing, the following typefaces are available: Scandinavian, Slavian, Greek, Russian.

Coloured filling of engraving

Specify whether engraving should be on the diffuser, or on the lens.
Specify the infill colour, character height and the text or symbol orientation.

Symbols

A list of the symbols available can be supplied on request.

2. Hot stamping

For large batches it is worth while to have the lettering produced by hot stamping.

Typefaces

For letters and figures, typefaces with 2,5 mm, 3 mm and 4 mm are available.

Symbols

A list of the symbols available can be supplied on request.

Important!

Before engraving, check the position of the illuminated pushbutton or indicator

Height of letters mm	(switch) lens	(18 x 24) 15,3 x 21,5 mm						(Ø 18) Ø 15,8 mm			(18 x 18) 15,3 x 15,3 mm		
		Horizontal mounting			Vertical mounting			Number of lines	Number of letters per line	Number of letters per line	Number of lines	Number of letters per line	Number of letters per line
h	s	Number of lines	Number of letters per line	Number of letters per line	Number of lines	Number of letters per line	Number of letters per line						
2,5	0,4	4	11	12	5	7-8	8	3	6	6	4	7-8	8
3	0,4	3	9-10	10-11	4	6-7	7	2	5	6	3	6-7	7
4	0,5	2	7	7-8	3	4-5	5	2	3	4	2	4-5	5
5	0,5	2	5-6	6	2	3-4	4	1	2	3	2	3-4	4
6	0,6	1	4-5	5	2	3	3-4	1	2	2	1	3	3-4
8	0,6	1	3-4	3-4	1	2-3	2-3	1	2	2	1	2-3	2-3
Film dimension		□ max. 12,7 x 18,7 mm						Ø 12,8 mm			□ 12,7 x 12,7 mm		

3. Film inserts

Instead of using engraving, the lenses can be fitted with transparent film inserts. For this purpose, though, it is advisable to use transparent lenses. When a smoked lens is used, the lettering does not become visible until the lamp lights.

Film dimensions

16,9x16,9 mm
11,9x11,9 mm
max 11,9x18,0 mm

Film thickness

0.2 mm

Important!

Before engraving, check the position of the illuminated pushbutton or indicator.

Данный компонент на территории Российской Федерации

Вы можете приобрести в компании MosChip.

Для оперативного оформления запроса Вам необходимо перейти по данной ссылке:

<http://moschip.ru/get-element>

Вы можете разместить у нас заказ для любого Вашего проекта, будь то серийное производство или разработка единичного прибора.

В нашем ассортименте представлены ведущие мировые производители активных и пассивных электронных компонентов.

Нашей специализацией является поставка электронной компонентной базы двойного назначения, продукции таких производителей как XILINX, Intel (ex.ALTERA), Vicor, Microchip, Texas Instruments, Analog Devices, Mini-Circuits, Amphenol, Glenair.

Сотрудничество с глобальными дистрибьюторами электронных компонентов, предоставляет возможность заказывать и получать с международных складов практически любой перечень компонентов в оптимальные для Вас сроки.

На всех этапах разработки и производства наши партнеры могут получить квалифицированную поддержку опытных инженеров.

Система менеджмента качества компании отвечает требованиям в соответствии с ГОСТ Р ИСО 9001, ГОСТ РВ 0015-002 и ЭС РД 009
