

SX-PCEGN

802.11 b/g/n PCI Express Card Module

Robust & Highly integrated 2 stream 11n solution

Wireless Solutions from the Experts in Embedded Wireless

The SX-PCEGN is an IEEE 802.11 b/g/n compliant 2.4GHz single band PCI Express Half-Mini Card with a 2x2 MIMO configuration. Designed for the growing demand of PCIe compliant devices that require wireless connectivity in a small form factor combined with high data throughput

Silex is one of the first companies to productize the AR9287 PCIe card solution in the industry. Unlike the other similar solutions, the design, manufacturing, and tuning processes are strictly controlled in-house at the Silex state-of-the-art ISO9001 facility in Japan.

Each card is individually tested and inspected to ensure the industry's highest quality resulting greater performance and reliability. The SX-PCEGN is designed to meet the demanding performance requirements of critical embedded applications.
