

PCA-116 Series Gage Heads

- Economy gage head
- AC operation
- 0.0001 inch [2.5 micron] repeatability
- Stroke ranges up to ± 0.30 inch [7.6mm]
- Replaceable hardened tool steel contact tip
- Compatible with all our signal conditioners

DESCRIPTION

The **PCA-116 Series** gage heads were developed to serve less demanding applications, where the balance between price and performance is paramount. Incorporating a standard LVDT (Linear Variable Differential Transformer), low friction nylon sleeve bearings and an externally spring loaded shaft, the PCA-166 affords the most cost effective gaging solution available. Other features include industry standard outer diameter for easy installation, and a replaceable hardened tool steel contact tip using the 4-48 UNF-2 threads.

Measurement Specialties, Inc. (NASDAQ MEAS) offers many other types of sensors and signal conditioners. Data sheets can be downloaded from our web site at: <http://www.meas-spec.com/datasheets.aspx>

MEAS acquired Schaevitz Sensors and the **Schaevitz®** trademark in 2000.

FEATURES
