

AN8001FHK

Gradation voltage generation IC for liquid crystal display

■ Overview

The AN8001FHK is a gradation voltage generation IC for liquid crystal displays and designed for 64-gradation LCDs. It is incorporating an 1.23 V reference voltage circuit, 10 gradation output buffer amplifier circuits, and a COM amplifier circuit.

■ Features

- Incorporating a high precision reference voltage source : 1.23 V (typ.)
- Wide dynamic range of buffer amplifiers and it is possible to provide an output from $V_{CC} - 0.2$ V (the highest stage) to GND + 0.2 V (the lowest stage).
- Large COM-amplifier drive current : ± 100 mA (max.)

■ Applications

- Gradation power supply source for LCDs

Note) Either current or voltage should not be applied from the outside to any terminals not specified.

For the circuit current, (+) is current flowing into the IC and (−) is current flowing out of the IC.

Set the input voltage of each amplifier within the range of the output voltage.

*1 : All items are at $T_a = 25^{\circ}\text{C}$, except for the operating ambient temperature and storage temperature parameters.

*2 : $T_a = 25^{\circ}\text{C}$

*3 : $T_a = 70^{\circ}\text{C}$

Вы можете разместить у нас заказ для любого Вашего проекта, будь то серийное производство или разработка единичного прибора.

В нашем ассортименте представлены ведущие мировые производители активных и пассивных электронных компонентов.

Нашей специализацией является поставка электронной компонентной базы двойного назначения, продукции таких производителей как XILINX, Intel (ex.ALTERA), Vicor, Microchip, Texas Instruments, Analog Devices, Mini-Circuits, Amphenol, Glenair.

Сотрудничество с глобальными дистрибьюторами электронных компонентов, предоставляет возможность заказывать и получать с международных складов практически любой перечень компонентов в оптимальные для Вас сроки.

На всех этапах разработки и производства наши партнеры могут получить квалифицированную поддержку опытных инженеров.

Система менеджмента качества компании отвечает требованиям в соответствии с ГОСТ Р ИСО 9001, ГОСТ РВ 0015-002 и ЭС РД 009
