

Pulse transformers
For LAN interface (10GBASE-T)
ALT series

ALT4532H type

■ FEATURES

- The ALT series contains wound chip type pulse transformers developed for LANs.
- Compatible with 10GBASE-T.
- High-quality product that uses auto winding.
- Conforms to the RoHS directive.
- Operating temperature range: -40 to +85°C (including self-temperature rise)

■ APPLICATION

- LAN interfaces of various devices including network devices, communication equipment, digital consumer electronics, etc.

■ PART NUMBER CONSTRUCTION

ALT	4532	H	121	T	10G
Series name	LxWxH dimensions 4.5x3.2x2.9 mm	Product internal code	Inductance (μ H min.) at 100kHz/No bias	Packaging style	Internal code

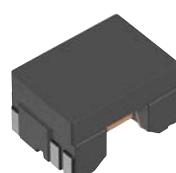

■ CHARACTERISTICS SPECIFICATION TABLE

Turn ratio	Inductance [No bias, 100kHz] ①⑥② : ⑤③④ ①-② ⑤-④ (μ H)min.	Insertion loss ①②-⑤④ (dB)max.	Inter-winding stray capacitance [100kHz] (pF)max.	Thickness T (mm)max.	Part No.
1CT : 1CT	120	0.5 at 1-150MHz 1.0 at 150-500MHz	35	2.9	ALT4532H-121-T10G

Measurement equipment

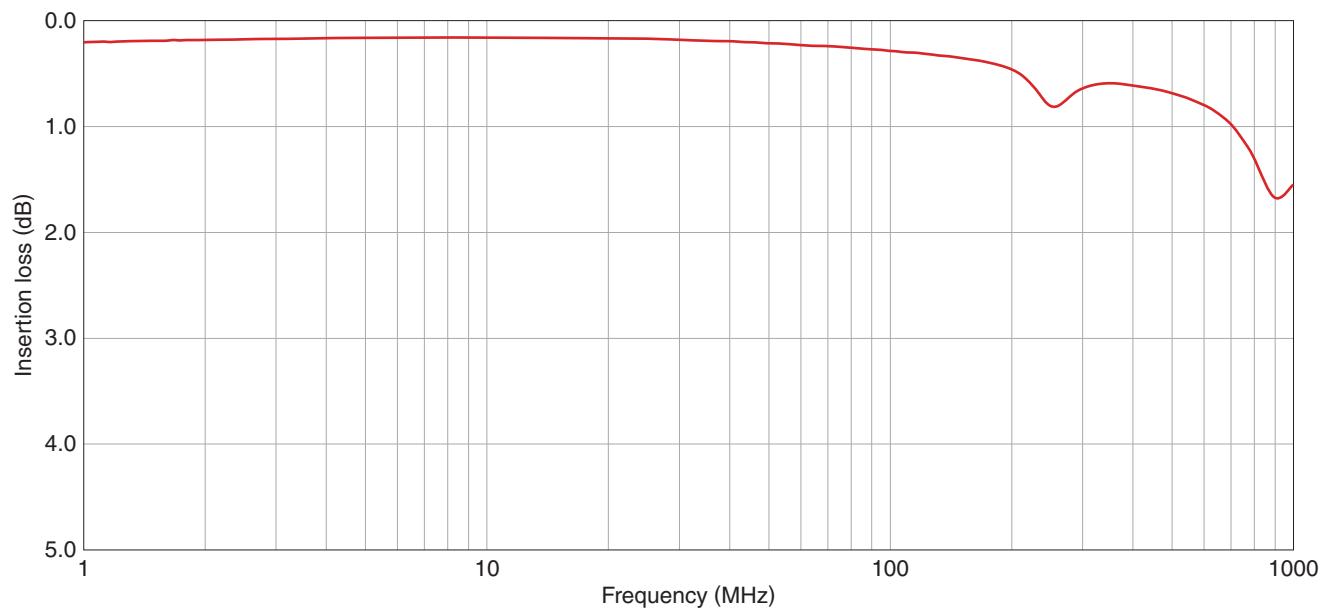

Measurement item	Product No.	Manufacturer
Inductance	4284A	Keysight Technologies
Insertion loss	E5071C	Keysight Technologies
Inter-winding stray capacitance	4284A	Keysight Technologies

* Equivalent measurement equipment may be used.

ALT4532H type

■ INSERTION LOSS VS. FREQUENCY CHARACTERISTICS

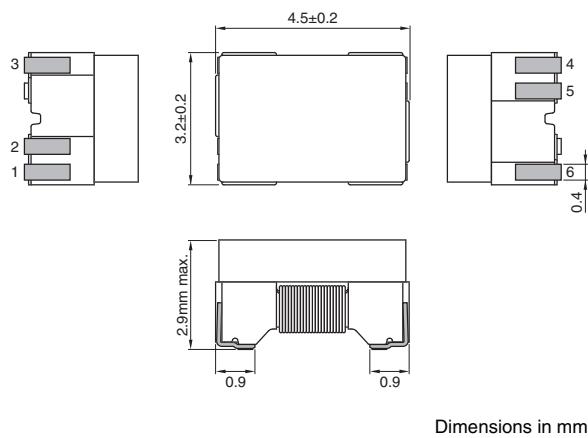

Measurement equipment

Product No.	Manufacturer
E5071C	Keysight Technologies

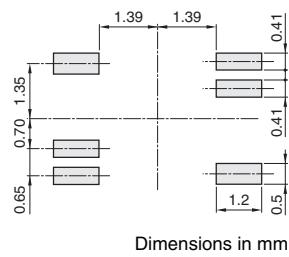

* Equivalent measurement equipment may be used.

ALT4532H type

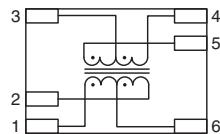

■ SHAPE & DIMENSIONS

■ RECOMMENDED LAND PATTERN

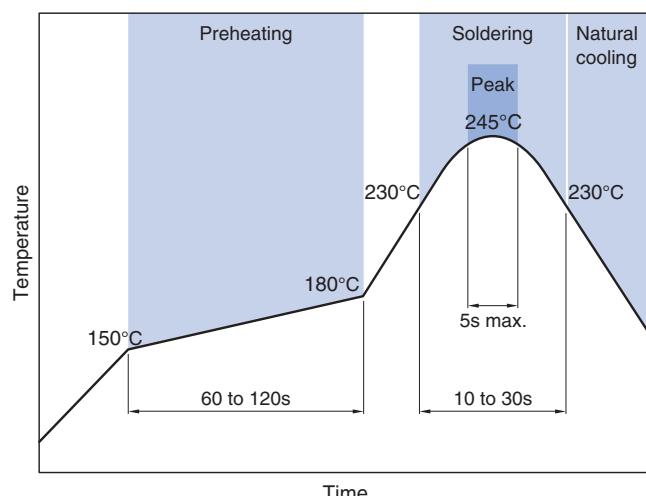

■ CIRCUIT DIAGRAM

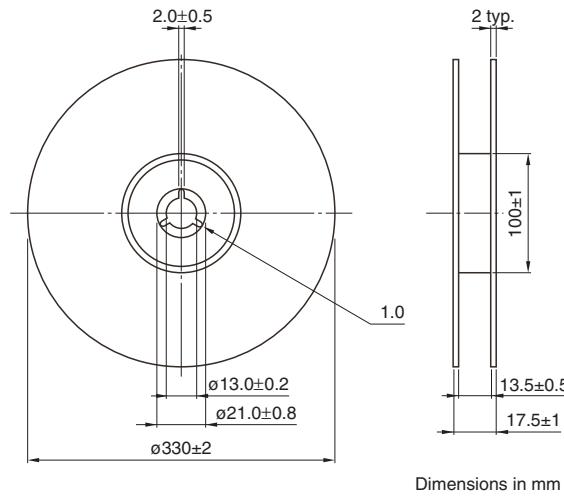

There is no directivity.

■ RECOMMENDED REFLOW PROFILE

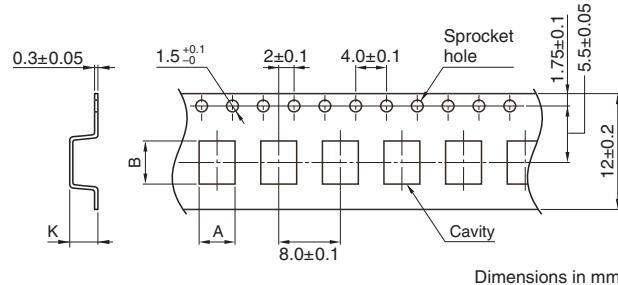

■ PACKAGING STYLE

□ REEL DIMENSIONS

□ TAPE DIMENSIONS

Type	A	B	K
ALT4532H	3.6±0.1	4.9±0.1	3.25max.

□ PACKAGE QUANTITY

Package quantity	2,000 pcs/reel
------------------	----------------

■ TEMPERATURE RANGE, INDIVIDUAL WEIGHT

Operating temperature range*	Storage temperature range**	Individual weight
-40 to +85°C	-40 to +85°C	160 mg

* Operating temperature range includes self-temperature rise.

** The storage temperature range is for after the assembly.

REMINDERS FOR USING THESE PRODUCTS

Before using these products, be sure to request the delivery specifications.

SAFETY REMINDERS

Please pay sufficient attention to the warnings for safe designing when using this products.

REMINDERS

- The storage period is less than 12 months. Be sure to follow the storage conditions (temperature: 5 to 40°C, humidity: 10 to 75% RH or less).
If the storage period elapses, the soldering of the terminal electrodes may deteriorate.
- Do not use or store in locations where there are conditions such as gas corrosion (salt, acid, alkali, etc.).
- Before soldering, be sure to preheat components.
The preheating temperature should be set so that the temperature difference between the solder temperature and chip temperature does not exceed 150°C.
- Soldering corrections after mounting should be within the range of the conditions determined in the specifications.
If overheated, a short circuit, performance deterioration, or lifespan shortening may occur.
- When embedding a printed circuit board where a chip is mounted to a set, be sure that residual stress is not given to the chip due to the overall distortion of the printed circuit board and partial distortion such as at screw tightening portions.
- Self heating (temperature increase) occurs when the power is turned ON, so the tolerance should be sufficient for the set thermal design.
- Carefully lay out the coil for the circuit board design of the non-magnetic shield type.
A malfunction may occur due to magnetic interference.
- Use a wrist band to discharge static electricity in your body through the grounding wire.
- Do not expose the products to magnets or magnetic fields.
- Do not use for a purpose outside of the contents regulated in the delivery specifications.
- The products listed on this catalog are intended for use in general electronic equipment (AV equipment, telecommunications equipment, home appliances, amusement equipment, computer equipment, personal equipment, office equipment, measurement equipment, industrial robots) under a normal operation and use condition.
The products are not designed or warranted to meet the requirements of the applications listed below, whose performance and/or quality require a more stringent level of safety or reliability, or whose failure, malfunction or trouble could cause serious damage to society, person or property.
If you intend to use the products in the applications listed below or if you have special requirements exceeding the range or conditions set forth in the each catalog, please contact us.

(1) Aerospace/aviation equipment	(8) Public information-processing equipment
(2) Transportation equipment (cars, electric trains, ships, etc.)	(9) Military equipment
(3) Medical equipment	(10) Electric heating apparatus, burning equipment
(4) Power-generation control equipment	(11) Disaster prevention/crime prevention equipment
(5) Atomic energy-related equipment	(12) Safety equipment
(6) Seabed equipment	(13) Other applications that are not considered general-purpose applications
(7) Transportation control equipment	

When designing your equipment even for general-purpose applications, you are kindly requested to take into consideration securing protection circuit/device or providing backup circuits in your equipment.

Данный компонент на территории Российской Федерации**Вы можете приобрести в компании MosChip.**

Для оперативного оформления запроса Вам необходимо перейти по данной ссылке:

<http://moschip.ru/get-element>

Вы можете разместить у нас заказ для любого Вашего проекта, будь то серийное производство или разработка единичного прибора.

В нашем ассортименте представлены ведущие мировые производители активных и пассивных электронных компонентов.

Нашей специализацией является поставка электронной компонентной базы двойного назначения, продукции таких производителей как XILINX, Intel (ex.ALTERA), Vicor, Microchip, Texas Instruments, Analog Devices, Mini-Circuits, Amphenol, Glenair.

Сотрудничество с глобальными дистрибуторами электронных компонентов, предоставляет возможность заказывать и получать с международных складов практически любой перечень компонентов в оптимальные для Вас сроки.

На всех этапах разработки и производства наши партнеры могут получить квалифицированную поддержку опытных инженеров.

Система менеджмента качества компании отвечает требованиям в соответствии с ГОСТ Р ИСО 9001, ГОСТ Р В 0015-002 и ЭС РД 009
