REN (250V) & RES (600V) Renewable Class H Fuses

Description

Non-current limiting, renewable 250V (REN) and 600V (RES) Class H fuses and fuse links (250V LKN and 600V LKS) for use in electrical systems where the available fault current is less than 10,000 amps and frequent outages dictate the economy of these renewable type fuses.

NOTE: The 70-600 amp ratings of the REN and RES fuses are now discontinued.

Suggested replacements are:

- REN; Use 250V FRN-R Class RK5 fuses (see data sheet # 1020)
- RES; Use 600V FRS-R Class RK5 fuses (see data sheet # 1018)

Replacement fuse links for all 1-600A ratings (250V LKN & 600V LKS) will continue to be available to service the installed base of REN and RES fuses.

Ratings

- Volts - REN 250Vac
- - RES 600Vac
- Amps - 1-60A
- Interrupting Rating - 10kA RMS Sym.
